Tips For Pics

1. Once sent, messages and images can’t be taken back.

2. **Whatever we post online, stays online - forever.**

3. Sending inappropriate pics threatens our reputation, privacy and future education/employment opportunities.

4. Use professional addresses for applications.
   Suggestive email addresses (i.e. partygurl@yahoo.com or hotguy@msn.com) send a red flag to colleges and employers.

5. **We should not let peer pressure force us into doing things we know are wrong, even if it’s “just for fun.”**

6. Pictures are part of our online footprint that follows us far into the future.

7. Our online and electronic actions contribute to the real-life impression we make on others.
