**REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS**

To Most Reverend Frank J. Caggiano  
Bishop of the Roman Catholic Diocese of Bridgeport

**Opinion**

We have audited the consolidated financial statements of The Bridgeport Roman Catholic Diocesan Corporation and Affiliates (collectively, the "Diocese"), which comprise the consolidated statements of financial position as of June 30, 2025 and 2024, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Diocese as of June 30, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for opinion**

We conducted our audits of the consolidated financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Diocese and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of management for the financial statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Diocese's ability to continue as a going concern for one year after the date the consolidated financial statements are available to be issued.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Diocese's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Diocese's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Supplementary Information**

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating schedules of financial position, activities, management and general expenses and functional expenses are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the

consolidated financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

## The Bridgeport Roman Catholic Diocesan Corporation and Affiliates

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2025 and 2024

#### NOTE 1 - ORGANIZATION

The Bridgeport Roman Catholic Diocesan Corporation (the "Diocese") is a Connecticut not-for-profit, religious non-stock corporation formed in 1953 serving more than 385,000 registered Catholics in Fairfield County. The Diocese's principal programs provide for pastoral, religious personnel services, care and support for retired clergy (including Queen of Clergy), Catholic education and faith formation, educational administration and curriculum, pastoral and human services focused on prison ministry and pastoral care of the aged, vocations and seminarian education, parish finance and other support services to parishes and individuals within the Fairfield county area.

The Diocese relies principally on contributions received through the Annual Bishop's Appeal and fundraising efforts to support the mission related services the Diocese provides. Cathedral income from parishes together with residual Catholic cemeteries revenues support the administration and general activities of the Diocese. In addition, the Diocese sponsors medical and dental care, workers' compensation programs, property, casualty, liability and other insurance programs, and Priest pension and postretirement benefit plans for the Diocese and other Diocesan entities and their employees. The other Diocesan entities are responsible for their respective portions of the cost of these programs.

Additionally, the Diocese operates elderly housing facilities, life use and rental properties for elderly residents (Teresian Towers and Carmel Ridge Estates), and pastoral care services for residents at nursing homes. In addition, the Diocese directly operates fifteen Catholic cemeteries and publishes the Fairfield County Catholic, a monthly publication available to all Catholics in the Roman Catholic Diocese of Bridgeport.

On July 1, 2021, cemeteries operations was established as a single member limited liability company, named Fairfield County Catholic Cemeteries of the Diocese of Bridgeport LLC ("Catholic Cemeteries"). Catholic Cemeteries is wholly owned by its Member, the Diocese, and its named Manager is the Bishop of the Diocese of Bridgeport. Catholic Cemeteries has a Board of Directors that oversees, administers and otherwise operates the cemetery business. Catholic Cemeteries mission is to provide for the burial of the faithful according to the rites and disciplines of the Catholic Church and for the care and maintenance of their resting places. Catholic Cemeteries also provides advance/pre-planning needs and bereavement programs for those in need.

The Diocese has established other single member limited liability companies ("LLC's"), wholly owned by the Diocese to acquire, hold, maintain or improve real property and improvements. These properties consist of the original land, buildings and certain property additions and of parish properties that have been closed or separated from an original parish. These LLCs are St. Raphael LLC and St. Joseph Properties, LLC. (collectively, "Diocesan LLC Properties"). The consolidated financial statements reflect the financial activities of these entities.

The following related Diocesan entities throughout Fairfield County, Connecticut are separately incorporated and independently controlled and/or managed on a day-to-day basis and their activities are not included in the accompanying consolidated financial statements:

- 74 parishes, three quasi-parishes, one shrine and oratory
- 20 elementary schools and four high schools
- The Sacred Heart Guild, Inc.
- Bridgeport Diocesan Schools Corporation

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting and Presentation***

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). All significant intercompany balances and transactions have been eliminated in consolidation.

***Classifications of Net Assets***

The Diocese reports its net assets and changes therein based on the existence or absence of donor-imposed restrictions as follows:

*Net Assets Without Donor Restrictions* - consist of resources available for the general support of the Diocese’s operations. These amounts are not subject to donor-imposed restrictions and may be used at the discretion of management and Bishop of the Roman Catholic Diocese of Bridgeport. Net assets without donor restrictions may also be board designated for specific purposes. The board designated net assets amount for the One were \$1,163,460 and \$0 as of June 30, 2025, and 2024, respectively. “The One” is the Diocese of Bridgeport’s commitment to renewing the culture of the Church and drawing every believer closer to the Lord Jesus through encounter and accompaniment.

Net assets without donor restrictions also include assets subject to legal, contractual or internal imposed limitations that they be segregated and used for the perpetual care and maintenance of cemetery property.

The State of Connecticut requires the establishment of a fund for the perpetual care and maintenance of each mausoleum, columbarium and sale of each crypt or niche. Catholic Cemeteries deposits amounts into the perpetual care fund that equal or exceed the amounts required by the State of Connecticut. Additionally, Catholic Cemeteries designates and deposits a portion of sales of grave

**June 30, 2025 and 2024**

burial and entombment rights into this perpetual care fund, which is not mandated by the State of Connecticut.

Certain contracts for private estates also established specific amounts to be designated for individual perpetual care needs.

Such funds are classified as without donor restrictions committed to perpetual care and maintenance within the accompanying statement of financial position. These funds were not contributions; therefore, they are not donor restricted under U.S. GAAP. As of June 30, 2025 and 2024, contractually committed amounts were \$3,626,362 and \$3,227,641 and designated amounts were \$11,486,777 and \$9,612,714, respectively.

*Net Assets With Donor Restrictions* - net assets subject to the following donor-imposed stipulations:

- Some donor restrictions are temporary in nature that either expire with the passage of time or can be fulfilled by the actions of the Diocese pursuant to those stipulations. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions. However, when restrictions on donor-restricted contributions and investment return are met in the same accounting period, such amounts are reported as part of net assets without donor restrictions.
- Other donor restrictions consist of funds that are subject to donor-imposed restrictions requiring that the principal be invested in perpetuity and the income be used for specific or general purposes.

***Cash and Cash Equivalents***

Cash and cash equivalents are defined as highly liquid investments with original maturities of up to 90 days from the date of purchase, except for money market accounts held with investment brokers, which are considered to be held for long-term investment purposes.

***Restricted Cash and Special Collections Payable***

Restricted cash and special collections payable represent funds received from parishes throughout the Diocese for special offertory collections on designated days for the benefit of other non-Diocesan Catholic entities at the direction of the U.S. Conference of Catholic Bishops, which are being held until future payment.

***Investments***

Investments in equity and debt securities with readily determinable fair values are recorded at fair value determined on the basis of quoted market values as of the reporting date. Investments in non-exchange traded alternative investments are recorded at the fair value of the Diocese's unit value in these funds as reported by the respective external investment managers. All investments are managed by outside investment advisors subject to the review, approval, and control of the Diocese. Such valuations involve assumptions and methods that are reviewed by the Diocese for reasonableness.

Purchases and sales of securities are recorded on the trade-date basis. Dividends and interest are recognized as earned. Realized and unrealized gains include the Diocese's gains and losses on investments purchased and sold as well as held during the year.

#### ***Fair Value Measurements***

The Diocese follows guidance which establishes a framework for measuring fair value and expands disclosures about fair value measurements and provides a consistent definition of fair value, which focuses on an exit price between market participants in an orderly transaction. The guidance also prioritizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the respective asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is categorized into three levels based on the transparency of inputs as follows:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the report date. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.
- Level 2 - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the report date. The nature of these securities include investments for which quoted prices are available but traded less frequently and investments that are fair valued using other securities, the parameters of which can be directly observed.
- Level 3 - Securities that have little to no pricing observability as of the report date. These securities are measured using management's best estimate of fair value, where the inputs into the determination of fair value are not observable and require significant management judgment or estimation.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the reporting entity. The Diocese considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Diocese's perceived risk of that instrument.

The Diocese's policy is to recognize transfers in and transfers out of levels at the end of the reporting period.

#### ***Due From Related Diocesan Entities***

Amounts due from related Diocesan entities relate primarily to amounts due for employee benefits, insurance premiums, pension premiums, Cathedraticum from parishes and advances made to parishes, educational institutions, and other Diocesan affiliated organizations that are in financial need. Because of the uncertainty surrounding collection, management provides an allowance for credit losses based on consideration of the type of receivable, responsible party, the known financial condition of the respective parish or Diocesan affiliated organization, historical collection patterns and comparative aging. These estimates are reviewed periodically and if the financial condition of the responsible party changes significantly, the Diocese will re-evaluate the recoverability of any amounts due from that organization. The Diocese writes off any amounts that are no longer considered to be recoverable, and any payments subsequently received on such receivables are recorded as income in the period received.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

**June 30, 2025 and 2024**

***Cemetery Inventory***

Cemetery inventory, which represents the cost of each unsold space, is stated at the lower of cost (computed based on the allocation of total costs incurred in the construction of the mausoleums) or market. As sales are recognized, inventory is reduced by the cost of the space sold.

Cemetery inventory consists of the following as of June 30:

	2025	2024
Crypts	\$ 3,578,379	\$ 4,360,429
Niches	798,636	622,001
Merchandise	17,468	-
Total inventory	\$ 4,394,483	\$ 4,982,430

Many land graves were acquired by the Diocese when formed in 1953 and within certain cemeteries that were established years before, which inventory values are considered de minimis.

***Beneficial Interest in Trust Held by Others***

The Diocese has been named as a beneficiary of a perpetual trust held by a third party. Perpetual trusts are initially recorded as permanently restricted support at fair value, based on the Diocese's beneficial interest in the fair value of the underlying trust assets at the time of gift. Subsequent changes in the trust's fair value are reported as changes in value in beneficial interests on the consolidated statements of activities. At June 30, 2025 and 2024, the balance of the Diocese's beneficial interest in a perpetual trust is \$494,793 and \$473,802, respectively, and is classified as Level 3 within the fair value hierarchy. The income received from the trust is designated for the benefit of seminarian education and recorded as part of investment income with donor restrictions.

The table below sets forth a summary of changes in fair value of the Diocese's Level 3 beneficial interest in trust held by others for the years ended June 30:

	2025	2024
Balance, beginning of year	\$ 473,802	\$ 441,527
Distributions	(20,000)	(15,000)
Change in fair value of beneficial interest in trust	40,991	47,275

***Property, Buildings and Equipment***

Property acquisitions and improvements are stated at cost, or in the case of donations, at fair value as determined on the date of gift. Additions and improvements that exceed \$5,000 and with useful lives greater than one year are capitalized and depreciated on a straight-line basis over the following estimated useful lives:

Furniture and fixtures	10 years
Vehicles, computers and other equipment	5 - 12 years
Buildings and related improvements	30 - 40 years
Land improvements	30 years

Repairs and maintenance are charged to expense as incurred.

***Leases***

The Diocese determines if an arrangement contains a lease at inception based on whether there is an identified asset and whether the Diocese controls the use of the identified asset throughout the period of use. The Diocese classifies leases as either financing or operating. Right-of-use ("ROU") assets are recognized at the lease commencement date and represent the Diocese's right to use an underlying asset for the lease term and lease liabilities represent the Diocese's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the lease commencement date based on the present value of future lease payments over the remaining lease term. Present value of lease payments is discounted based on the risk-free rate. Expenses related to leases determined to be operating leases are recognized on a straight-line basis, while those determined to be finance leases are recognized following a front-loaded expense pattern in which interest and amortization are presented separately in the income statement. Operating leases are presented separately as operating lease ROU assets and operating lease liabilities in the consolidated statement of financial position. The Diocese does not have any financing leases.

The Diocese elected certain practical expedients permitted under the standard which eliminate the need to separately assess lease and non-lease components and recognize ROU lease assets or lease liabilities for leases with terms of less than 12 months. In addition, the Diocese utilized the portfolio approach to group leases with similar characteristics.

***Deferred Revenue and Refundable Advances***

Funds that are received from related entities for insurance premiums relating to future periods and certain cemetery revenues where the related performance obligation has not yet been completed as of year-end are reflected within deferred revenue and refundable advances on the consolidated statements of financial position and are subsequently reflected in the consolidated statements of activities during the period in which they apply and are earned. As of June 30, 2025 and 2024, \$401,700 and \$159,150, respectively, are within deferred revenue and refundable advances pertaining to cemetery revenues and are also included in cemeteries and other accounts receivable, net.

Amounts of grants and contracts that are received but unearned are reflected within deferred revenue and refundable advances on the consolidated statements of financial position and are subsequently reflected in the consolidated statements of activities during the period to which they apply as funds are expended or earned.

**June 30, 2025 and 2024**

***Deferred Revenue - Life Use Fees and Rental Income***

The Diocese operates certain homes for life use and rental properties for elderly residents (Teresian Towers and Carmel Ridge Estates) in which certain residents have entered into a residency agreement requiring the payment of a one-time life use fee and a monthly service fee. These fees are exclusively for the costs of occupancy of the residential unit for life and no portion of the fee is allocated for medical care or services for the resident. The life use fee is refundable at a rate of 10% per annum from the date the resident is entitled to occupancy under the agreement to the date the unit is vacated by the resident. Teresian Towers also provides other senior living options that operate under operating lease agreements that do not require payment of a life use fee and are recorded as rental income in the period earned.

Life use fees paid by the resident upon executing a residency agreement are recorded as deferred revenue and amortized into rental income based on the longer of the actuarially determined remaining estimated life of the respective resident or the remaining refundable term under the executed contract. Monthly service fees include resident maintenance fees and are recognized as part of rental income in the month in which they are earned.

***Due to Related Diocesan Entities***

Amounts received from the Annual Bishop's Appeal and other contributions earmarked for support of the related entities are recorded as due to related diocesan entities on the consolidated statements of financial position.

***Conditional Asset Retirement Obligations***

The Diocese has conditional asset retirement obligations ("CARO") for asbestos materials and underground storage tanks associated with buildings it owns. Those obligations are defined as legal obligations associated with the eventual retirement of tangible long-lived assets in which the timing and/or the method of settlement is conditional on a future event that may or may not be within the control of the Diocese. The present value of those obligations and the resulting accretion expense, together with the related asset retirement cost capitalized, accumulated depreciation and depreciation expense are recognized in the consolidated financial statements. As of June 30, 2025 and 2024, the CARO liability totaled \$5,997,890 and \$6,272,987, respectively. For the years ended June 30, 2025 and 2024, accretion of interest related to these obligations totaled \$363,070 and \$383,893, respectively. For the years ended June 30, 2025 and 2024, an additional adjustment totaling \$(638,167) and \$(441,057) respectively was captured related to obligations settled from the sale of a properties. Additionally, as of June 30, 2025 and 2024, included in buildings and improvements are capitalized CARO at a cost of \$179,825 and accumulated depreciation of \$178,938 and \$177,450, respectively.

***Revenue Recognition***

The Diocese recognizes revenue when control of the promised goods or services are transferred to the Diocese's customers in an amount that reflects the consideration the Diocese expects to be entitled to in exchange for those goods or services. The Diocese has identified employee benefit and insurance programs, cemeteries operations and elderly housing and other rental income as the primary revenue categories subject to this guidance.

Payments received in advance of the Diocese satisfying its performance obligations are recorded within deferred revenue and refundable advances in the consolidated statements of financial position. The changes in deferred revenue were caused by normal timing differences between the satisfaction of performance obligations and customer payments. The Diocese's contracts with customers generally contain terms that are less than one year. Accordingly, The Diocese elected the practical expedients to not

**The Bridgeport Roman Catholic Diocesan Corporation and Affiliates**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

**June 30, 2025 and 2024**

assess whether a contract has a significant financing component or disclose the information regarding the remaining performance obligations for contracts with customers.

***Cemeteries Revenues***

Catholic Cemeteries sell rights to interment and entombment on retail installment agreements generally of not more than two-year's duration, without interest. These amounts are recognized as revenue at the point in time when the contract is executed. Other specific revenues generated from sales of pre-construction mausoleums are deferred until the construction is completed and corresponding mausoleum is available for use, at which time the corresponding revenue is recognized. Revenues related to the sales of cemetery merchandise or cemetery burial site openings and closings are recorded at the point in time of delivery or performance of the related services.

A portion of revenue from certain sales is invested, at an amount determined by management that meets or exceeds what is required by Connecticut regulations and, together with the investment income therefrom, is available for perpetual care and maintenance of cemetery properties. Additionally, Catholic Cemeteries designates and deposits a portion of sales of grave burial and entombment rights into this perpetual care fund, which is not mandated by the State of Connecticut. The value of the investments in this discretionary account totaled \$11,486,777 and \$9,612,714, as of June 30, 2025 and 2024, respectively.

In addition, owners of private property improvements (private mausoleums, estate walls, etc.) at the cemeteries provided additional funds at the time of purchase that are required to be held by the Diocese in a separate investment account and invested in perpetuity. Investment income therefrom, is available for care and maintenance for those specific property improvements. The value of the investments for owners of private property improvements totaled \$3,626,362 and \$3,227,641 as of June 30, 2025 and 2024, respectively.

Cemeteries accounts receivable are shown net of an allowance of \$138,352 and \$253,901 as of June 30, 2025 and 2024, respectively. The majority of these receivables are due within one year.

***Contributions***

The Diocese recognizes revenues from contributions and grants in accordance with guidance requiring the Diocese to evaluate whether (1) transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal) transactions subject to other guidance, and (2) determining whether a contribution is conditional. The Diocese evaluates whether the contribution is conditional based upon whether the agreement includes both (1) one or more barriers that must be overcome before the Diocese is entitled to the assets transferred and promised and (2) a right of return of assets transferred or a right of release of a promisor's obligation to transfer assets.

Contributions, including unconditional promises to give, are reported as revenues in the period received. Contributions received with donor-imposed stipulations that limit the use of the donated assets are reported as support with donor restrictions. When donor restrictions are fulfilled, net assets with donor restrictions are reported in the statements of activities as net assets released from restrictions. For those donor restricted contributions whose restrictions are met in the same fiscal year as the receipt, the contributions are recorded as net assets without donor restrictions. Unconditional promises to give that are expected to be received after one year are discounted to reflect the present value of future cash flows using a credit adjusted discount rate assigned in the year the respective pledge originates. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any. An allowance for uncollectible contributions receivable is provided in the net asset class in which the contribution receivable resides based on an assessment of the creditworthiness of the respective donor. Contributions are written off when determined to be uncollectible. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

**The Bridgeport Roman Catholic Diocesan Corporation and Affiliates**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

**June 30, 2025 and 2024**

The Diocese had \$500,000 and \$700,000 of conditional contributions as of June 30, 2025 and 2024, respectively.

Contributed services are recognized in the consolidated financial statements if they enhance nonfinancial assets or require specialized skills, are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation. General volunteer services do not meet this criteria for recognition.

Intentions to give under various wills and trust agreements are recorded as bequests receivable when the Diocese has an irrevocable right to the bequest and the proceeds are measurable.

***Annual Bishop's Appeal***

The Annual Bishop's Appeal provides support for Diocesan mission related programs and program support for certain related entities. Appeal goals are established annually for parishes as well as solicitations to parishioners. The Annual Bishop's Appeal is conducted on a calendar year basis. Contributions are recorded in the period received.

***Cathedraticum***

Annually, a Cathedraticum assessment is determined for each parish, which is based on certain revenues of the parish. The Cathedraticum assessment helps to support the Diocesan ministries and necessary administrative services that directly benefit the Diocesan parishes. Assessments are billed monthly during the fiscal year. Revenue related to the Cathedraticum assessments are recorded when billed.

***Rental Income***

Elderly housing and other rental income is recognized over the period the related performance obligations are satisfied.

The Diocese leases office and other space to related entities under short-term leases and recognizes rental income ratably over the lease term. The lease agreements are executed on an annual basis.

Catholic Cemeteries leases a residence on cemetery grounds under a short-term lease and recognizes rental income ratably over the lease term. The lease agreement is executed on an annual basis.

***Employee Benefit and Insurance Programs***

Premiums for employee benefits, property, liability and workers compensation insurance are billed by the Diocese or a third-party vendor on a monthly basis to parishes, schools and other entities related to the Diocese and are recognized as revenue in the period for which the coverage pertains.

***Functional Expense Allocation***

Expenses are charged directly to Diocesan program services, management and general, and stewardship and development based on specific identification, to the extent practicable. Expenses related to more than one function have been allocated using reasonable ratios, as determined by management, amongst the programs and supporting services benefited. Those expenses include personnel costs, insurance, professional fees, occupancy, operations, office and depreciation. Management and general expenses include those expenses that are not directly identifiable with a specific function but provide for the overall support and direction of the Diocese.

**The Bridgeport Roman Catholic Diocesan Corporation and Affiliates**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

**June 30, 2025 and 2024**

***Operating Measure***

The Diocese classifies its consolidated statements of activities into operating and nonoperating activities. Operating activities principally include all income and expenses related to carrying out the Diocese's mission, including interest and dividends from Diocesan operations and rental income. Nonoperating activities include interest and dividends not included in operating activities, realized and unrealized gains (losses) on investments, change in value of beneficial interests, insurance proceeds, bad debt expense (recovery), gain or loss on sale of assets, contributions from dissolved related entities, pension activity other than service cost, support to certain diocesan schools and other activities considered to be of a more unusual or nonrecurring nature, if any.

***Use of Estimates***

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated statement of financial position and the reported amounts of revenues and expenses during the reporting period. The most significant management judgments and estimates used in the preparation of the consolidated financial statements relate to the determination of depreciation and accretion expense, the reported fair value of certain financial instruments, liability for Priest pension and other postretirement benefits, provision for operating accruals, and the collectability of amounts due from related Diocesan entities, contributions receivable, notes receivable and cemetery installment contracts. Actual results could differ from those estimates.

***Concentration of Market and Credit Risks***

Cash, cash equivalents and investments are exposed to interest rate, market, and credit risks. The Diocese maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. To minimize risk, the Diocese's cash accounts are placed with high-credit quality financial institutions, and the Diocese's investment portfolio is diversified with several investment managers in a variety of asset classes. The Diocese regularly evaluates its depository arrangements and investments, including performance thereof.

***Income Taxes***

The Diocese recognizes an individual tax position in its consolidated financial statements based upon whether the tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Diocese has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; determine its filing and tax obligations in jurisdictions for which it has nexus; and to review other matters that may be considered tax positions. As of June 30, 2025 and 2024, management has determined that the Diocese has no material uncertain tax positions that would require recognition or disclosure in its consolidated financial statements.

In an annually updated ruling, the Internal Revenue Service ("IRS") has held that agencies, instrumentalities and educational, charitable, and religious institutions operated, supervised, or controlled by or in connection with the Roman Catholic Church in the United States, its territories or possessions appearing in "The Official Catholic Directory" are exempt from federal income tax under provisions of Section 501(c)(3) of the Internal Revenue Code. The Diocese is listed in "The Official Catholic Directory" and therefore is exempt from income tax. Accordingly, the accompanying consolidated financial statements reflect no provision for income taxes.

***Liquidity and Availability***

The Diocese's working capital and cash flows have cyclical variations during the year attributable to the cash receipts for contributions from the Annual Bishop's Appeal, Cathedralicum assessment paid by parishes, rental income and other program fees as well as billings for employee benefit and insurance programs and other fees to related entities.

Total financial assets available to meet cash needs for general expenditures as of June 30, 2025 and 2024 are as follows:

**NOTE 9 - BENEFICIAL INTEREST IN ASSETS HELD BY FOUNDATIONS IN FAITH, INC.**

Foundations in Faith, Inc., a related Diocesan entity, is a Connecticut nonprofit, non-stock corporation formed in February 1996. Foundations in Faith was established to raise, manage and disburse funds raised by the Foundations in Faith Endowment Campaign of the Diocese. The campaign purposes were to create a permanent endowment to support Catholic education, vocation and seminary education, priests' residence and retirement fund and Diocesan ministries and programs that benefit Diocesan elementary schools and the Diocese. Foundations in Faith and the Diocese are considered to be financially interrelated under U.S. GAAP as both entities are under common control of the Bishop of the Diocese and the Diocese is the beneficiary of certain endowment funds held by Foundations in Faith. Accordingly, the Diocese records its respective interest in the assets of Foundations in Faith and the change in its interest using a method similar to the equity method of accounting.

The Diocesan's beneficial interest in the pooled endowments of Foundations in Faith increased during the year. The increase represented a reallocation of existing endowment assets of approximately \$7,400,000. The assets transferred retained their original donor-imposed restrictions, where applicable, and continue to be classified within net assets with donor restrictions. As of June 30, 2025 and 2024, the Diocese has recorded a beneficial interest in assets held by Foundations in Faith of \$20,487,485 and \$12,085,781, respectively, on the accompanying consolidated statements of financial position and are classified as Level 3 within the fair value hierarchy.

**NOTE 16 - DEFINED BENEFIT PLANS**

***Bridgeport Diocesan Pension Plan (Lay Plan)***

The Diocese participates in the Bridgeport Diocesan Pension Plan (the “Lay Plan”), a multiemployer, defined benefit plan sponsored by the Roman Catholic Diocese of Bridgeport. The Lay Plan covers lay employees of the Diocese and other Diocesan entities who worked at least 20 hours per week and met the eligibility requirements of three years of continuous service and 30 years of age on or before July 2, 2008. Effective July 31, 2010, pension benefits under the plan were frozen. No additional benefits will be earned by participants for services rendered after that date. Pension benefits are based on years of service and average compensation over a five-year period during the last 10 years of employment prior to July 31, 2010.

Due to the nature of the Lay Plan, it is not practicable to determine the extent to which the assets of the Lay Plan cover the actuarially computed value of vested benefits for the Diocese on a standalone basis. In addition, because the Lay Plan is considered to be a multi-employer plan, it is only subject to certain

minimum reporting requirements. Pension expense allocated to the Diocese for the Lay Plan for the years ended June 30, 2025 and 2024 amounted to approximately \$646,000 and \$587,000, respectively, and is expected to approximate \$646,000, for the year ending June 30, 2026. Additionally, cemetery operations contributed \$0 and \$500,000 to the Lay Plan for the year ended June 30, 2025 and 2024, respectively.

The Lay Plan is considered a church plan and is therefore exempt from the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

**Contributions**

The Diocese expects to contribute approximately \$649,000 to the Priest Plan during the fiscal year ended June 30, 2026.

**Plan Assets**

Asset management objectives include maintaining an adequate level of diversification to reduce interest rate and market risk while also providing adequate liquidity to meet benefit payment requirements.

The Diocese's long-term investment objective is to achieve the actuarial target return, maintain sufficient liquidity to meet the obligations of the plan, diversify the investments to reduce risk, and achieve investment results over the long term that compare favorably with those of other pension plans, professionally managed portfolios and appropriate benchmark indices. Consistent with this long-term objective, the composition of plan investments is managed within a range that targets the following allocations by asset type:

	Minimum	Target	Maximum
Asset class:			
Equities	65%	70%	75%
Fixed income	25	30	35
Cash equivalents	-	-	20

The Diocese's Investment Committee regularly reviews the plan assumptions, asset allocation and performance of the investments in the Priest Plan.

The expected rate of return on pension plan assets is determined by those assets' historical long-term investment performance, current asset allocation and estimates of future long-term returns by asset class.

As of June 30, 2025 and 2024, the Diocese's Priest Plan assets that are classified as Level 1 within the fair value hierarchy consist of the following:

	2025	2024
Cash equivalents	\$ 92,968	\$ 8,946

The Diocese maintains a defined contribution 401(a) thrift plan covering all lay employees of the Diocese and other Diocesan entities working at least 30 hours per week who meet the eligibility requirements of one year of service and 21 years of age. Contributions are based on years of service to Diocesan entities at rates of 3% after the one-year eligibility period and increasing to 5% on the fifth anniversary of full-time employment. The Diocese's contributions totaled approximately \$423,000 and \$414,000 for the years ended June 30, 2025 and 2024, respectively.

The Diocese, in the normal course of its operations, is a party to various legal proceedings and complaints, some of which are covered by insurance. While it is not feasible to predict the ultimate outcomes of such matters, management of the Diocese is not aware of any claims or contingencies which are not covered by insurance that would have a material adverse effect on the Diocese's consolidated financial statements.

The Diocese has unconditionally guaranteed, in the event of default, loans from banks to other Diocesan entities principally related to the construction of facilities. At June 30, 2025 and 2024, the aggregate balances outstanding on these loans, which the Diocese has guaranteed, approximated \$656,000 and \$731,000, respectively. Management is currently not aware of any defaults or circumstances that would require the Diocese to perform under such guarantees and as such, no loss provision has been recognized as of June 30, 2025 and 2024.
